I would like to express my disappointment with the NAB and it's attempt to stop the broadcast of traffic and weather on XM radio. I am an african american living in a predominately white state that has very little diversity when it comes to radio. I was really pleased to have the oppertunity to get satalite radio and to get a more diverse radio listening experiance in this state. If the NAB is allowed to get it's agenda passed who knows what other programming they will go after next. As a tax paying citizen I BEG you to put the stop to their selfish and misguided intentions. Sincerely, Joe Jackson
